

Magalcom is a leading system integrator in design, deployment, maintenance and support of Data Centers and communication rooms based on the turnkey project methodology.

Magalcom's cross vendor relationship allows incorporating multi-vendor solutions that encompass cost effective technologies for its customers.

Magalcom's organic teams of engineers provide a seamless end to end turnkey solution for the Data Center customer. Magalcom's fields of expertise include: electrical engineering, HVAC engineering, Civil engineering, Mechanical engineering, Intrusion Detection, Surveillance, Access Control, Fire Detection and Suppression and more.

Magalcom's customers benefit from the company's multi-disciplinary integration skills. Magalcom is a dominant player in the delivery of state of the art solutions for communication equipment, communication infrastructure, IT infrastructures and homeland security solutions. This unique combination creates a full end-to-end integrated solution that is exclusively enjoyed by Magalcom's customers.

-
- Multi-vendor integration
 - Comprehensive end-to-end integrated solution
