

Magalcom specializes in the delivery, implementation and integration of complex hardware/software systems in heterogeneous IT environments. The company's ability to integrate storage, servers, operating systems, databases and applications is the result of Magalcom's intense in-house training program, unparalleled experience and diverse range of vendors.

Magalcom supplies a wide range of solutions for cloud computing, disaster recovery, business continuity planning, SAN networks, SaaS and virtualization.

Magalcom's customers benefit from the company's multi-disciplinary integration skills. The company is a dominant player in delivery of state of the art solutions for data centers, communication infrastructure, communication equipment and homeland security solutions. This unique combination creates a full end-to-end integrated solution that is exclusively enjoyed by Magalcom's customers.

-
- Multi-vendor Multi-system integration
 - Comprehensive end-to-end integrated solution
