

Control Rooms

Magalcom is a market leader of turnkey high end technological solutions for control rooms. The control room serves as the nerve center providing monitoring and event handling for critical applications such as:

- homeland security • traffic control • process control
- network operations center (NOC) • cyber control center... etc.

Magalcom's market dominancy is based on a combination of experienced design and implementation teams, backed by world leading vendors for control center components such as video walls, matrix video switching, innovative voice solutions, management software for creation of predefined scenarios, mission specific furniture solutions and more.

Magalcom's customers benefit from the company's multi-disciplinary integration skills. Magalcom is a dominant player in delivering state of the art solutions for data centers, communication infrastructures, communication equipment, IT infrastructure and IP based homeland security systems. This unique combination creates a full end-to-end integrated solution that is exclusively enjoyed by Magalcom's customers.

-
- Multi-vendor multi-system integration
 - Custom made innovative solutions
