

Communication Infrastructure

Magalcom
Telrad Group

Magalcom has been a dominant player in the communication infrastructure market for over 30 years. Over this time, the company has gained its reputation as a technological leader and reliable contractor for large scale projects.

Magalcom is licensed by leading global manufacturers to design, supply, install and maintain structured cabling systems by Panduit, Tyco AMP- NetConnect, R&M, 3M, Systimax, Siemon, Corning and more.

The company is also licensed and approved by leading government bodies, including the Standards Institution of Israel (SII) (ISO 9001:2000), the Registrar of Contractors, the Ministry of Communications ("Neser" license), and has also been approved as official contractor for all government ministries, agencies and the IDF (Israeli Defense Forces).

Magalcom's customers benefit from the company's multi-disciplinary integration skills. Magalcom is a dominant player in the delivery of state of the art solutions for data centers, communication equipment, IT infrastructures and homeland security solutions. This unique combination creates a full end-to-end integrated solution that is exclusively enjoyed by Magalcom's customers.
